# STEINWAY & SONS

PATENT OVERSTRUNG GRANDS,
AND SQUARE PIANOS
Are new considered the best Pianos manufactured.
Opinion of nearly all the greatest and most prominent Musicians and Aritist regarding these instruments:
The undersigned, having parsonally examined and practically tested the improvement in Grand Pianos invented by H. STEINWAY, in which the covered strings are overstrung above those remaining, do hereby certify:

1. That as a result of the said improvement the voice of the Piano is greatly improved in quality, quantity and power.

2. The sound by Steinway's improvement is much mere even, less harsh, stronger, and much better prolonged, than that realized in any other Piano with which we are acquainted.

3. The undersigned regard the improvement of Mr. Steinway as most novel, ingenious and important. No Piano of similar construction has ever been known or used, so far as the undersigned know or believe.

WILLIAM MASON.

And many others.
